

The World Stevia Organisation is a non-profit-making international organization. In no case, part of its assets or incomes shall benefit to any private or individual partnership or corporation.

Created in May 2010 for the first conference about Stevia organized by SFA, WSO is the result of a coordinate willing of SFA, ISANH and JSA committees. They were looking for new strategies to prevent chronic diseases like obesity or diabetes. One of these was Stevia application in food and beverages. SFA, ISANH and JSA decided to set up a committee in order to link together all people involved in Stevia at all levels: the WSO was born.

The aims of WSO are to:

- **Advance the practical applications** of Stevia and [low calories natural sweeteners](#) .
