

You can elect the “**Best Stevia Product/Extract of the Year**” during Stevia Tasteful 2012.

Why a special Voted Stevia Product/Extract of the Year?

The aim of this session is to display all stevia finished products available in European market and to offer the opportunity to attendees to judge the taste of each product.

The jury will be composed of Stevia Tasteful attendees and each member of the jury will have to fill in, separately and independently, a **special tasting sheet** which includes **different parameters**

The **tasting procedure** is, on the one hand, based on the **sensory analysis** such as the general taste of the product, the aroma, appearance, flavour, mouth feel or any other organoleptic criteria. On the other hand, it takes into account other parameters which are important to the customer such as clear

information on the ingredients,

the

packaging

, is it

easy to prepare

,

directions for use

...

In order to guarantee a fully objective judgment, all the scores given by the different jury members are added up and averaged to a final percentage.

This is not simple blind tasting but an **overall assessment of the quality** of the product presented **including the ingredients used**

WSO Stevia Tasteful awards are divided in two categories:

Stevia Tasteful Award

Category

Stevia Tasteful Award 2012 - Extract Category
